Program: Kevin Greenwood, ATK

Kevin Greenwood from ATK (formerly Accudine & Alliant Techsystems) spoke to us about who ATK is and what they do. They are a spinoff of Honeywell Defense. They manufacture weapons and ammunition for large weapons and bombs for the Department of Defense. The Janesville plant does "Fusing" for the weapons they manufacture. Rounds for some of the large ammunition they make were passed around, and the slides showed some of the products they manufacture.
