Program: Dick Wixsom, Aircraft Restoration

Dick Wixsom gave an interesting talk on the complexities of Aircraft Restoration. He got interested in it while looking to keep his employees busy during business slow downs. It is a complex task to restore aircraft do to the difficulty in finding parts and dealing with the Federal Aviation Administration as they must approve many of the procedures and parts used to restore an aircraft. Prior to taking on the task of restoration one must determine the type of aircraft to restore keeping in mind the materials needed will dictate the cost. Dick has been certified to fly for 50 years and suggests that if you get the opportunity to attend the EAA Fly-in in August you should take it.

Eric Scherdel was born in Janesville circa 1969. Attended school here and then went to college at UW Whitewater where he graduated with a double major in Accounting and Golf. He went to work for McNally & Company, S.C. then onto Virchow Krause. He has been the Club's treasurer for 13 years and is the current City Golf Champion. He very much enjoys the company of women.

If a sense of duty tortures a man, it also enables him to achieve prodigies.

Did You Know?

The Kiwanis motto, "We Build," was adopted in 1920. It was proposed by Roe Fulkerson, first editor of the Kiwanis Magazine, who later said, "God inspired me to write those two words – We Build. I am prouder of them than any other accomplishment in my life."
