Program:

David Brookhiser is President and Founder of Table Innovations. His company designed an adult activity table for disabled and handicapped individuals. These tables are marketed mainly through Nasco. The tables are being built by Kandu Industries.

The company also designed a little room for blind children called SOS or Site of Senses. This unit is in great demand but the people who need them most cannot afford them.

Schools would like more but there is no money in the budget. There was discussion whether the Kiwanis District Foundation could help with this through our own foundation board member, Andy Frelich.

Thanks to Jim Holmstrom for taking the notes. Members having information for future newsletters can email
