### Happy Dollars:

Marcia Lee was happy for Ed Pulliam getting the Wisconsin Budget pushed thru.

Harvey was happy to see Karen Cain in the house, as they used to watch their kids play football together.

Ed was happy that Marcia was happy.

The Pandemic will be visited upon us within the next 1-50 years. A Pandemic will affect 15-35% of the world population killing anywhere between 2 and 5 %.

A full blown Pandemic will kill one million Americans. The world is visited by a Pandemic approximately every 100 years; the last one was the Spanish Flu of 1918 which killed 40 million people worldwide.

Although these numbers are chilling, the real impact will be on the economic scale where businesses will close as workers are ill, dead, or are afraid to leave their homes for fear of becoming ill or dead.

By the way, the lunch was really good today; pork roast and mashed potatoes.
