HUMAN & SPIRITUAL VALUES ** OPEN **

Kiwanis is a global organization of volunteers dedicated to changing the world one child and one community at a time.

February 28, 2008, Vol. XXVI, No.22

Computed Tomography Coronary Angiogram

Students:

Craig: Traci Hanson

Announcements:

Midwinter Conference was held February 22-24. Harvey and Andy made the trip and attended several workshops.

Harvey announces that the club is donating funds to supply the Emergency 1st Responders with Age Appropriate Color Coded medical supply bags.

Meals on Wheels needs our help ASAP. Call Irene and sign up now!!

Ace pot drawing:

Kevin O'Leary selects the 2 of Hearts and the pot rolls over.

Happy Dollars:

Dave Green was happy to see Ray Brost's grand daughter in the house today.

The Show:

Dr. Christian Posner was in the house today to discuss the Computed Tomography Coronary Angiogram. The new CT scanner acquired by Mercy Hospital last year at a cost of \$2 Million.

A new test is available to diagnose coronary artery disease. In the past, noninvasive functional tests of the heart were used, such as treadmill tests and nuclear studies, to indirectly assess if there were blockages in the coronary arteries. The only way to directly look at the coronary arteries was via a cardiac catheterization and coronary angiogram.

CT scans have been used to look at various anatomic regions, but have not been useful for the heart because the heart is continuously in motion. CT is very effective in looking at "static" areas, such as the brain, abdominal cavity, and extremities. Most early CT scanners take 1-8 pictures (slices) a minute, much slower than the rate of the heart. Just as taking a picture of a moving object with a camera results in a blurry picture, conventional CT scans of the heart are not helpful. A new generation of CT scanners which can take 64 pictures a minute is now available; with the use of a little medication to slow the heart rate to less than 64, CT images of the coronary arteries are now possible.

Thanks to Dave Fleig for taking the notes. Members having information for future newsletters can email editor@janessvillekiwanis.org.
